

To,

The President/Gen Secy.
Medical Technologists Association,

[Sub: Invitation for National Debate/Discussion on Proposed- NCHRH.](#)

Dear Sir,

As you know, that Ministry of Health, Government of India is planning for an overarching regulatory body, the National Council for Human Resources in Health (NCHRH) to regulate Doctors and all other allied health professionals. For a wider consultation on this important health issue, Ministry of Health has invited views/suggestions from General Public/Health Professionals of the country on proposed NCHRH Bill-2009. The Proposed Bill is expected to be placed before Parliament of India in coming Session of the Parliament. This Bill is proposed with a view to establish single Statutory National Council which will regulate Doctors and all other health professionals i.e. Nurses, Pharmacists, Dentists Physiotherapists, Laboratory Technologists, Radiographers and other allied health categories. Once this Bill is passed, all existing Bodies/Councils like Medical Council of India, Dental Council of India, Indian Nursing Council, Pharmacy Council of India etc. will be scraped.

A national debate/discussion on this issue will be organized for a unified approach towards this Bill. The eminent speakers/ health professionals and representatives of various health Associations will be participating from all over India.

All interested individuals are invited to participate in this important debate/discussion.
